How green is green enough?

“The EU’s Green Taxonomy and the Green Bond Standard are good starts, but they are binary. Mainstreaming sustainable investing will require a richer taxonomy – 50 shades of green”

- Mark Carney, Governor of the Bank of England

A close-up photograph of several dandelion seed heads, some in focus and some blurred, against a soft, light-colored background. The seed heads are dark purple or brown, with fine, radiating lines forming the seed structure.
